

Mobile App Specification (Household)

- **Household / Moderator Registration (Partially Developed)**

- **Household Registration**

Step 1 → Select Country Code & Register with mobile number and OTP to verify

Revised Step 1 → Select Country Code & Register with mobile number and OTP to verify

***Note: Based on country code selection further flow will be changed**

Step 2 → Verify with Local Digital Identity

- **India**

- **Verify with Aadhar**

- **Name**

- **Gender**

- **Address**

- **Date of Birth**

- **Bhutan**

- **Village → [Drop down]**

- **Household Family Name**

- **User Name**

- **Address proof**

- **Social Security number**

- Address

- Geotag location

- Moderator Registration [Once its submitted, Status: Review in progress | Verify from Backend: Approve / Decline]

Note: From admin panel, admin should have the option to assign one or multiple village to a particular moderator and later that village can be replaced with a different moderator.

- First Name

- Last Name

- Upload Address proof

- Upload Field Officer supporting document (optional)

- Address

- Food

- Production

- Cultivation

By default the user input of **Land Allocation for Cultivation**** will be shown on the top of the screen**

- Name / type of the crop → [Drop down] (Note: User will have the option to add specific type of crop and from backend it will get approved)

- Area Allocated → ____7____ (in acres) [area allocated for this crop]

- Output → __10____ (fetched from crop type, generally in kg)

- Self consumed → _____ (in kg)

- Fed to Livestock → _____ (in kg)

- Sold to Neighbours → _____ (in kg)

- Sold for Industrial Use or in consumer market → _____ (in kg)

- Wastage → _____ (in kg)

- Other (specify) → _____

- Soil health → [Drop Down] (Stable, Decreasing Yield - how much % from first planting → _____)

- Type of fertiliser used → [Drop down] (Organic Self Made, Organic Purchased, Chemical Based)

- Type of Pesticide Used → [Drop down] (Organic Self Made, Organic Purchased, Chemical Based)

- Income from sale → _____ [Local currency, fetched from user registration form]

- Expenditure on inputs → _____ [Local currency, fetched from user registration form]

- Required Processing method if any for the outputs → _____(short description)

- Yield per [local measurement unit] → ****[auto-generated] output/sub sub area****

- Month planted → month and year

- Month Harvested → month and year

- Trees, Shrubs & Grasslands

- No. of types → 3

- Types of trees & shrubs → [Drop Down]

****For each type they have to fill the following information****

- Number of trees → 3

- Average age of the trees →

- Soil health → [Drop Down] (Stable, Decreasing Yield - how much % from first planting → _____)

- Type of fertiliser used → [Drop down] (Organic Self Made, Organic Purchased, Chemical Based)

- Type of Pesticide Used → [Drop down] (Organic Self Made, Organic Purchased, Chemical Based)

- Income from sale →

- Expenditure on inputs →

- Number of different product harvested → 4

****For each type they have to fill the following information [CARD]****

- Types of fruits & byproducts → _____

- Quantity in kg/litres →

- Self consumed →

- Fed to Livestock →

- Sold to Neighbours

- Sold for Industrial Use or in consumer market

- Wastage

- Other (specify)

- Month Harvested → month / year

- Required Processing method if any for the outputs → Yes / No

- Poultry

- Livestock, feed & produce

- No. of types → [Enter Number]

****For each type they have to fill the following information****

- Types of Livestock → [Drop Down]

- Number → _____(count)

- Type of feed required apart from grassland grazing → [Drop Down | Option to add]

- Feed→ _____ Kgs

- Sourced from → [Drop Down, Multi select and multi data input field | Self Produced, Neighbours, purchased from market, other - specify] - *should add up to total feed*

- Average age of the livestock → _____

- Income from sale → _____

- Expenditure on inputs → _____

- Any hormones/ artificial productivity enhancing mechanism applied
→ _____yes/no_____

- Number of different product harvested → __4__

****For each type they have to fill the following information****

- Types of product & By products → [Drop Down]

- Qty in kg/litres

- Self consumed

- Sold to Neighbours

- Sold for Industrial Use or in consumer market

- Wastage

- Other (specify)
- Month Harvested → month / year
- Required Processing method if any for the outputs → yes/no
- Fishery
 - Total area allocated for ****fish ponds**** → **** _____ **** (in acres)
 - From Pond
 - Add Fish from Drop Down List

For each fish add the following fields

- Total Number →
- Total Feed →
- Type of feed required → [Select from Drop down]
- Output → _____ [Count]
- Self consumed → _____
- Sold to Neighbours → _____
- Sold for Industrial Use → _____
- Wastage → _____
- Other (specify) →
- Income →

- Expenditure →
- Yield →
- Required Processing method if any for the outputs → yes/no
- Harvested from River
 - Add Fish from Drop Down List

For each fish add the following fields

- Total Number →
- Type of feed required → [Select from Drop down]
- Output → _____ [Count]
- Self consumed → _____
- Sold to Neighbours → _____
- Sold for Industrial Use → _____
- Wastage → _____
- Other (specify) →
- Income →
- Expenditure →
- Yield →
- Required Processing method if any for the outputs → yes/no

- Hunting

- **Hunting**

- No. of Type [animal] → 3

****For each type they have to fill the following information****

- Type → _____ [drop down]

- Number hunted during the year → _____ (Count)

- Meat → _____ in kgs

- Self consumed → _____ in kgs

- Sold to Neighbours → _____

- Sold for Industrial Use or in consumer market → _____

- Wastage →

- Other (specify) →

- Income from sale →

- Expenditure on inputs →

- Required Processing method if any for the outputs →

- Storage

- **Storage facility/method**

- For grains → [drop down - method of storage]

- Area allocated for each →

- For Poultry → [drop down]

- Area allocated for each →

- For meat → [drop down]

- Area allocated for each →

- For Fruits & Vegetables → [drop down]

- Area allocated for each →

- Needs if any → _____

- Selling Channels

- ****Selling channels [Multi Select]****

- Local Market

- Broker

- Ecommerce

- Export

- None

- Consumption

- Grains & nuts

- No. of types → _____

- Types of Grains & Nuts→ [Drop Down]

****For each type they have to fill the following information****

- Total Qty

- Purchased from market

- Purchased from neighbors

- Self- Grown

- Vegetables

- No. of types → _____

- Types of Vegetables→ [Drop Down]

****For each type they have to fill the following information****

- Total Qty

- Purchased from market

- Purchased from neighbors

- Self- Grown

- Herbs

- No. of types → _____

- Types of Herbs→ [Drop Down]

****For each type they have to fill the following information****

- Total Qty

- Purchased from market

- Purchased from neighbors

- Self- Grown

- Legumes

- No. of types → _____

- Types of Legumes→ [Drop Down]

****For each type they have to fill the following information****

- Total Qty

- Purchased from market

- Purchased from neighbors

- Self- Grown

- Fruits

- No. of types → _____

- Types of Fruit→ [Drop Down]

****For each type they have to fill the following information****

- Total Qty

- Purchased from market

- Purchased from neighbors

- Self- Grown

- Dairy

- No. of types → _____

- Types of Dairy → [Drop Down]

****For each type they have to fill the following information****

- Total Qty

- Purchased from market

- Purchased from neighbors

- Self- Grown

- Meat

- No. of types → _____

- Types of Meat → [Drop Down]

****For each type they have to fill the following information****

- Total Qty

- Purchased from market

- Purchased from neighbors

- Self- Grown

- Spices & Condiments

- Types of Spices & Condiments→ [Drop Down]

****For each type they have to fill the following information****

- Total Qty

- Purchased from market

- Purchased from neighbors

- Self- Grown

- Tea/coffee

- Types of Tea / Coffee→ [Drop Down]

****For each type they have to fill the following information****

- Total Qty

- Purchased from market

- Purchased from neighbors

- Self- Grown

- Oils

- Types of Oil → [Drop Down]

****For each type they have to fill the following information****

- Total Qty _____

- Purchased from market

- Purchased from neighbors

- Self- Grown

- Processed food & beverages

- Types of Processed food & beverages→ [Drop Down]

****For each type they have to fill the following information****

- Total Qty

- Purchased from market
- Purchased from neighbors
- Self- Grown
- Alcohol/Tobacco
- Types of Alcohol & Tobacco → [Drop Down]

****For each type they have to fill the following information****

- Total Qty
- Purchased from market
- Purchased from neighbors
- Self- Grown
- Demographic Information
 - How many members are there in your family? → [Input Field]

Based on the “number”, we should list below “Member 1”, “Member 2” and so on.

Note: User needs to enter the following information for all the members in his/her household

- Marital status → [Select]

- Drop down list

- Married

- Single

- Divorced

- Separated

- Diet → [Select from the dropdown]

- Drop Down List

- Predominantly vegetarian

- Predominantly non veg

- Balanced

- Vegan

- Pescatarian (Vegetarian + Fish)

- Other (Specify) : `[Input Field]`

- Height → [Input field] | Unit

- Weight → [Input field] | Unit

- Language

- Speaking → [Select from dropdown]

- Reading → [Select from dropdown]

- Writing → [Select from dropdown]

 - Within 2-5 years
 - Within 5-10 years
 - After- 10 years
- Housing
 - Total Number of Houses owned → [Input Field]

Based on the number of House, We will list House 1, House 2, House 3 etc.
AND these house names should be editable

- ****[For each House, Questions are inside toggle menu]****

- Name of the House → [Input field]

- Type of House → [Select from the Drop down]

- Family House

- Farm House

- Special Purpose (Vacation, retirement home etc)

- Land utilised for this house → [Input field]

- Number of units built → [Input field]

- Total Built Up Area → [Input field]

- No. of floors → [Input field]

- ~~Living area → [Input field]~~

- Year built → [Year Selector]

- Year last renovated → [Year Selector]/[Input field]

- Year last expanded → [Year Selector]/[Input field]

- Type → [Select from the dropdown]

- Traditional Long House

- ****Concrete Cement****

- Non traditional wooden

- Stone

- ****Ecofriendly bioregen****
- **Other [Please specify]**
- **Upload photos → [Option to upload and preview images] (Photo front, neighbourhood, back, inside living & kitchen)**
- **Amenities → [Multiple option select from the dropdown]**
 - **Rooms**
 - **Living hall**
 - **Kitchen**
 - **Altar**
 - **Store**
 - **Bathrooms inside**
 - **Bathrooms outside**
 - **Parking**
 - **Terrace**
 - **Running water**
 - **Water storage tanks**
 - **Septic tank**
 - **Water pump**
 - **Connection to STP**
 - **Micro grid**
- **Further Requirements**

- Equipment → [Multiselect Dropdown]

- Solar Panels**
- Water Heaters**
- Air Conditioning Units**
- Heating Systems (Radiators, Heat Pumps)**
- Ceiling Fans**
- Gas Stoves/Induction Cooktops**
- Water Purifiers**
- Washing Machines**
- Refrigerators**
- Dishwashers**
- Generators**
- Rainwater Harvesting Systems**
- Biogas Units**
- Borewell Systems**
- Home Security Systems (CCTV, Alarms)**
- Smart Home Devices (Thermostats, Smart Plugs)**
- Fire Extinguishers**

- Furnishing → [Multiselect Dropdown]

- Beds and Mattresses**

- Sofas and Armchairs
- Dining Tables and Chairs
- Wardrobes/Closets
- TV Units and Entertainment Consoles
- Storage Units
- Carpets/Rugs
- Curtains/Blinds
- Kitchen Cabinets
- Lighting Fixtures (Chandeliers, Wall Lamps)
- Mirrors
- Renovation requirement → [Yes/No]

If “Yes”,

- Urgency → [Select from the dropdown]
 - within 1 year
 - within 2-5 years
 - within 5-10 years
 - after- 10 years
- Expansion requirement → [Yes/No]

If “Yes”,

- Urgency → [Select from the dropdown]

- within 1 year

- within 2-5 years

- within 5-10 years

- after- 10 years

****Housing Requirements [Global Questions]****

- Do you need a New House unit? → [Yes/No]

If “Yes”,

- Purpose → [Multiselect Dropdown]

- Residential

- Commercial

- Rental Income

- Mixed Use (Residential + Commercial)

- Agricultural (Farmhouse, Storage)
- Community Housing
- Emergency Housing (Disaster Recovery, Temporary Shelter)
- Upgrading Existing Infrastructure
- Other (Specify)
- Urgency → [Select from the dropdown]
 - within 1 year
 - within 2-5 years
 - within 5-10 years
 - after- 10 years
- Do you need land for the new unit? [Yes/No]

If “Yes”

- Required area? → [Input field]
- Water
 - Usage Information
 - Cooking & Drinking [Title]
 - Yearly water consumption → [Select from dropdown]
 - Less than 500 liters

- 500–1,000 liters
- 1,001–2,000 liters
- 2,001–5,000 liters
- 5,001–10,000 liters
- 10,001–20,000 liters
- More than 20,000 liters
- Sourced from → [Multiple Select from]
 - Rivers
 - Streams
 - Lakes
 - Reservoirs
 - Springs
 - Ground Water
 - Rain Water
- Water quality → [Select from dropdown]

- Reservoirs
- Springs
- Ground Water
- Rain Water
- Water quality → [Select from dropdown]
 - Suitable for Irrigation (No Harm to Crops)
 - High Salinity (Limited Crop Suitability)
 - Contaminated (Harms Crop Growth)
- Expense → [Input Filed] [Unit: Currency]
- A button to create a new option with same questions
 - Button Text: “Add other purpose if any”
- Harvest & Wastewater Information

Water harvesting capacity [Title]

- Type of harvesting → [Multi select from drop down]
 - Rainwater

- Fog
- Desalination
- Stormwater
- Others [Specify]

For each type enter the following information,

- Enter Capacity → [Input fields] [Litre]

Wastewater disposal [Title]

- Wastewater disposal method → [Multi Select from drop down]

- Septic Tank
- Discharged openly into soil
- Discharged into river
- Discharged into local sewage treatment plant

- Water recycling methods → [Select from dropdown]

- Biofiltration Systems
- Greywater Recycling

- Wastewater Treatment Units

- Others (Specify) [Input Field]

- General Information

- Do you have water meter? [Yes/No]

- Case of Water Scarcity → [Yes/No]

- [if yes]

- How severe it is → [Select from dropdown]

- Mild (Occasional shortages, manageable with basic measures)

- Moderate (Regular shortages, requires significant adjustments)

- Severe (Frequent shortages, major impact on daily life)

- Extreme (Constant shortages, critical impact on health and livelihood)

- Time/season [Input Field]

- Energy & Fuel

- Connected to electric grid → [Select] Yes/No

- Yearly Household electricity consumption → [Input field]

- Yearly Expenditure on the electricity → [Input field]

- Yearly consumption of petrol → [Input field] (litres)
- Yearly expenditure on petrol → [Input field]
- Yearly consumption of diesel → [Input field] (litres)
- Yearly expenditure on diesel → [Input field]
- Yearly consumption of natural gas for cooking → [Input field] Units?
- Yearly expenditure on natural gas → [Input field]
- Other sources of fuels used → [Multiple select from drop down]
 - Firewood
 - Agricultural Residue (e.g., crop waste)
 - Dung Cakes
 - Biogas
 - Charcoal
 - Solar Equipment
 - Kerosene
 - Liquefied Petroleum Gas (LPG)
- For each of the selected source:
 - Is there any renewable microgrid installed? → [Yes/No]
- Energy sources & micro grids at the village level:
- Available renewable energy sources → [Multiple select]
 - Solar Energy

- Wind Energy
- Hydropower
- Biogas
- Biomass
- Geothermal
- Waste-to-Energy
- Hybrid Systems (e.g., Solar-Wind)
- Other (Specify)
- For each of the selected source
 - Percentage of village electricity
- Mobility
 - No. of Vehicles owned → [input field]
 - ****For each vehicle****
 - Type → [Select one from the following]
 - Diesel/Petrol car
 - Nested selection → SUV | Camper | Sedan | Hatchback | Other (specify)
 - Electric Car
 - Cycle
 - Moped
 - Motorbike

- Boat
- Other (specify)
- Total travelled within a village in a year → [input field in kms]
- Kms travelled outside → [input field in kms]
- Purpose → [Select one from the following]
 - Dominantly for the work
 - Dominantly for recreation and socialising
 - Balanced equally between work and recreation
- Frequency of usage → [Select one from the following]
 - Daily
 - Weekly
 - Monthly
- Vehicle requirement → [Yes/No]

If “**Yes**”

- Type → [Select one from the following]
 - Diesel/Petrol car
 - Nested selection → SUV | Camper | Sedan | Hatchback | Other (specify)
 - Electric Car

- Cycle
- Moped
- Motorbike
- Boat
- Other (specify)
- How many → [input field]
- Purpose → [Select one from the following]
 - Daily
 - Weekly
 - Monthly
- Urgency → [Select one from the following]
 - Within 1 year
 - Within 2-5 years
 - Within 5-10 years
 - After 10 years
- Forestry and timber
 - Total Area of Owned Land under forest cover → [input field]
 - Number of timber logs harvested from the forest in a year → [input field]
 - From own forest cover land → [input field]

- From community forest → [input field]
- Type of other produce harvested from forest → [Text input field]
- Quantity → [input field]
- Purpose → [Text input field]
- Timber requirements in the coming year → [Yes/No]

If yes

- Quantity → [input field]
- Purpose → [Text input field]
- Forest produce requirements in the coming year → [Yes/No]

If yes

- Quantity → [input field]
- Purpose → [Text input field]
- Other Personal & Household items

Personal Care Items

- Yearly expense → [input field | Unit: Local Currency]

- Prepared locally or at home → [Yes/No]

If “Yes”

- Type → [Multi select from dropdown]

- Quantity → [input field]

Cleaning Products

- Yearly expense → [input field | Unit: Local Currency]

- Prepared locally or at home → [Yes/No]

If Yes

 - Purpose
 - Urgency → [Yes/No]
- Do you plan to start a new business or organisation → [Yes/No]

If “Yes”

- Does it require land → [Yes/No]

If “Yes”

- Already owned → [Yes/No]

- Type → [Text input field]

- Purpose → [Text input field]

****Village level****

- Any other establishment/ organisation not owned by villagers → [Yes/No]

If “Yes”

- Type → [Text input field]

- Year started → [Year selector]

- Purpose → [Text input field]

Mobile App Specification (Household)

- Household / Moderator Registration (Partially Developed)

- Household Registration

Step 1 → Select Country Code & Register with mobile number and OTP to verify

Revised Step 1 → Select Country Code & Register with mobile number and OTP to verify

Note: Based on country code selection further flow will be changed

Step 2 → Verify with Local Digital Identity

- India
 - Verify with Aadhar
 - Name
 - Gender
 - Address
 - Date of Birth
- Bhutan
 - Village → [Drop down]
 - Household Family Name
 - User Name
 - Address proof
 - Social Security number
 - Address
 - Geotag location
- Moderator Registration [Once its submitted, Status: Review in progress | Verify from Backend: Approve / Decline]

Note: From admin panel, admin should have the option to assign one or multiple village to a particular moderator and later that village can be replaced with a different moderator.

- First Name
- Last Name
- Upload Address proof
- Upload Field Officer supporting document (optional)
- Address
- Food
 - Production

■ Cultivation

By default the user input of **Land Allocation for Cultivation** will be shown on the top of the screen

- Name / type of the crop → [Drop down] (Note: User will have the option to add specific type of crop and from backend it will get approved)
- Area Allocated → **7** (in acres) [area allocated for this crop]
- Output → **10**__ (fetched from crop type, generally in kg)
- Self consumed → _____ (in kg)
- Fed to Livestock → _____ (in kg)
- Sold to Neighbours → _____ (in kg)
- Sold for Industrial Use or in consumer market → _____ (in kg)
- Wastage → _____ (in kg)
- Other (specify) → _____
- Soil health → [Drop Down] (Stable, Decreasing Yield - how much % from first planting → _____)
- Type of fertiliser used → [Drop down] (Organic Self Made, Organic Purchased, Chemical Based)
- Type of Pesticide Used → [Drop down] (Organic Self Made, Organic Purchased, Chemical Based)
- Income from sale → _____ [Local currency, fetched from user registration form]
- Expenditure on inputs → _____ [Local currency, fetched from user registration form]
- Required Processing method if any for the outputs → _____(short description)
- Yield per [local measurement unit] → **[auto-generated] output/sub sub area**
- Month planted → month and year
- Month Harvested → month and year

- Trees, Shrubs & Grasslands

- No. of types → 3

- Types of trees & shrubs → [Drop Down]

- **For each type they have to fill the following information**

- Number of trees → 3__

- Average age of the trees →

- Soil health → [Drop Down] (Stable, Decreasing Yield - how much % from first planting → _____)

- Type of fertiliser used → [Drop down] (Organic Self Made, Organic Purchased, Chemical Based)

- Type of Pesticide Used → [Drop down] (Organic Self Made, Organic Purchased, Chemical Based)

- Income from sale →

- Expenditure on inputs →

- Number of different product harvested → 4__

- **For each type they have to fill the following information [CARD]**

- Types of fruits & byproducts → _____

- Quantity in kg/litres →

- Self consumed →

- Fed to Livestock →

- Sold to Neighbours

- Sold for Industrial Use or in consumer market

- Wastage

- Other (specify)

- Month Harvested → month / year

- Required Processing method if any for the outputs → Yes / No

- Poultry

- Livestock, feed & produce

- No. of types → [Enter Number]

- **For each type they have to fill the following information**

- Types of Livestock → [Drop Down]

- Number → _____(count)

- Type of feed required apart from grassland grazing
→ [Drop Down | Option to add]

- Feed→ _____ Kgs

- Sourced from → [Drop Down, Multi select and multi data input field | Self Produced, Neighbours, purchased from market, other - specify] - *should add up to total feed*

- Average age of the livestock → _____

- Income from sale → _____

- Expenditure on inputs → _____

- Any hormones/ artificial productivity enhancing mechanism applied → **yes/no**__

- Number of different product harvested → **4**__

- **For each type they have to fill the following information**

- Types of product & By products → [Drop Down]

- Qty in kg/litres

- Self consumed

- Sold to Neighbours

- Sold for Industrial Use or in consumer market

- Wastage

- Other (specify)

- Month Harvested → month / year

- Required Processing method if any for the outputs → yes/no

- Fishery

- Total area allocated for **fish ponds** → _____ (in acres)

- From Pond

- Add Fish from Drop Down List

- For each fish add the following fields

- Total Number →
 - Total Feed →
 - Type of feed required → [Select from Drop down]
 - Output → _____ [Count]
 - Self consumed → _____
 - Sold to Neighbours → _____
 - Sold for Industrial Use → _____
 - Wastage → _____
 - Other (specify) →
 - Income →
 - Expenditure →
 - Yield →
 - Required Processing method if any for the outputs → yes/no

- Harvested from River

- Add Fish from Drop Down List

- For each fish add the following fields

- Total Number →
 - Type of feed required → [Select from Drop down]
 - Output → _____ [Count]

- Self consumed → _____
- Sold to Neighbours → _____
- Sold for Industrial Use → _____
- Wastage → _____
- Other (specify) → _____
- Income → _____
- Expenditure → _____
- Yield → _____
- Required Processing method if any for the outputs
→ yes/no
- Hunting

■ Hunting

- No. of Type [animal] → 3
- **For each type they have to fill the following information**

- Type → _____ [drop down]
- Number hunted during the year → _____ (Count)
- Meat → _____ in kgs
- Self consumed → _____ in kgs
- Sold to Neighbours → _____
- Sold for Industrial Use or in consumer market →

- Wastage → _____
- Other (specify) → _____
- Income from sale → _____
- Expenditure on inputs → _____
- Required Processing method if any for the outputs
→ _____

■ Storage

■ Storage facility/method

- For grains → [drop down - method of storage]
 - Area allocated for each →
- For Poultry → [drop down]
 - Area allocated for each →
- For meat → [drop down]
 - Area allocated for each →
- For Fruits & Vegetables → [drop down]
 - Area allocated for each →
- Needs if any → _____
- Selling Channels

- **Selling channels [Multi Select]**

- Local Market
- Broker
- Ecommerce
- Export
- None
